SUMMARY

Frontend Developer with **2+ years** of experience crafting responsive, high-performance web interfaces and scalable applications. Skilled in modern technologies including **HTML5, CSS3, JavaScript, React, Nextjs, Tailwind CSS, WordPress, and Shopify (Liquid)**. Proficient in the **MERN stack** and experienced in developing and maintaining client **ERP solutions**, with expertise in **Expressjs, PostgreSQL, and React**. Strong background in **API integration, Material UI, Redux, Appwrite, Firebase, Google Tag Manager, and Google Analytics**, ensuring optimized performance and data-driven insights. Adept at transforming **Figma designs** into pixel-perfect, cross-browser websites and integrating backend services to deliver seamless digital solutions. Notable project work includes developing a **Nextjs landing page** for online course providers, showcasing scalability and user-focused design.

Passionate about continuous learning and eager to master new technologies, with a strong commitment to delivering innovative solutions that drive business growth and maximize value.

EXPERIENCE

04/2025 - 06/2025

Front-end Developer | React, HTML, CSS, JavaScript, jQuery, Shopify, Wordpress

Digital Cuberoot

- Developed and maintained custom websites and web applications using **React**, **HTML5**, **CSS3**, **JavaScript**, **advanced jQuery**, **Shopify** and **Wordpress.**
- Transformed **Figma** and design mockups into **pixel-perfect**, **responsive**, and **cross-browser compatible** web pages.
- Implemented **modern UI animations** and interactive components to enhance user engagement and experience.
- Optimized front-end code for **performance**, **accessibility**, and **SEO best practices**.
- Handled complex JavaScript and jQuery logic to build dynamic, feature-rich interfaces.

09/2023 - 03/2025

Web Developer

3DM Solutions

- Associate Software Engineer with expertise in HTML5, CSS3, Tailwind, Bootstrap5, JavaScript, and jQuery. Skilled in Shopify and WordPress for website development, maintenance, and speed optimization. Proficient in Google Tag Manager and Google Analytics for tracking and insights.
- Proficient in developing complex applications and scalable UIs

01/2022 - 04/2023

Front-end Developer

Nukes Lab

- Worked as Front-end Developer focusing on building responsive and user-friendly applications

EDUCATION

01/2018 - 12/2021

Bachelors in Software Engineering

Sir Syed University of Engineering and Technology

CERTIFICATION

Web & Mobile Application Development (React Course)

From Jawan Pakistan

SKILLS

Material UI, HTML5, CSS3, Tailwind CSS, JavaScript (ES6+), NextJs, ReactJs, Redux, Express.js, Node.js, PostgreSQL, MongoDB, Firebase, AppWrite, RESTful API Integration, Shopify (Liquid), WordPress, Figma, Git & GitHub, Responsive Web Design, Google Tag Manager, Google Analytics, Cross-Browser Compatibility, Web Performance Optimization, UI/UX Design Principles, Problem Solving, Critical Thinking, Team Collaboration, Communication Skills, Agile Methodologies, Time Management, Attention to Detail, Adaptability.

Author

PROJECTS

Full-Stack ERP Software (React JS + Express + PostgreSQL)

🔗 https://github.com/engineertalhashamim/hydraulic-project

- Built a **full-stack ERP software for a hardware business** using React, Redux, Express, and PostgreSQL, featuring secure login with express-sessions, multi-warehouse management, and dynamic setup for users, products, and accounts.
- Implemented N-level chart of accounts, products and warehouse management and actively developing sales, purchase modules for complete operational control.

Next JS - Landing Page

🔗 https://github.com/engineertalhashamim/courses-provider-app

- Developed a Next.js landing page for online course providers, showcasing a scalable and user-friendly platform for delivering engaging learning experiences.

React Projects

- Developed a product dashboard using Material UI and Firebase. Featured product management and integrated chart graphs.
- **https://dashboard-product-listing.vercel.app**
- Developed a responsive landing page using React.js, implementing dynamic card display with data from an array. Utilized the map() function to efficiently render multiple cards in the front-end.
- **https://landing-page-chi-ashen.vercel.app**
- Developed a currency converter mini project using React.js. Implemented features to select source and target currencies**.**
  https://currency-converter-one-amber.vercel.app
- Developed a password generator mini project using React hooks. Enhanced user experience by allowing dynamic customization of password complexity.
- **https://passwordgenerator-seven-livid.vercel.app**
- Developed a mini website to fetch and display GitHub data using GitHub API. Focused on practicing routing and API integration.
- **https://react-router-iota-eight.vercel.app/github**

Custom Web Development Projects

- Designed and developed the custom website for "Digital Cuberoot", delivering a modern, responsive, and user-friendly interface.
- **https://www.digitalcuberoot.com**
- Designed and developed the "Simple Digital" website, creating a customized layout from Figma designs and ensuring a responsive, user-friendly experience.
- **https://digitalcuberoot.com/talha/index.php**
- Developed a custom health clinic website based on Figma mockups. Designed a user-friendly interface.
- **https://health-clinic-rust.vercel.app/My_Health.html**

Shopify E-Commerce Projects

Developed responsive e-commerce platforms for diverse products with user-friendly UI and advanced filtering using HTML, CSS, Bootstrap, and JavaScript.
